

Unidentified Blight Threatens Delaware Oyster Industry

By JOSEPH T. DOLLE
Staff Writer
Delaware oyster industry is sick and near death. In the past few years, the industry has lost more than 90 percent of its production. The cause is a mysterious blight that strikes the oysters in the Delaware Bay. The blight is a disease that attacks the oysters in the Delaware Bay. The blight is a disease that attacks the oysters in the Delaware Bay. The blight is a disease that attacks the oysters in the Delaware Bay.
